Imperceptibly is rising the influence of one governor, who has the last word within everything what is happening not only in Siberia, but around the whole Russia. The Russian president is trying to confine his lordship by elimination of the oligarchs and by re-privatization of their property. But the real menace still drowsing elsewhere The powers and influence of local leaders are getting slowly to be absolute within their territory, the federal authorities are venal, once strongest military powers are ready to serve to anyone, who will feed their families.
